Cat6 Coupler Indoor

Description

Fastcabling Cat6 coupler allows you to extend the length of a Cat5e/Cat6 patch cable by adding another patch cable. The Stainless Shielded Enclosure is designed to prevent the interference from environment, making the data pass thru the coupler fast and smoothly. The Cat6 couple can reach speed up to 10/100/1000mbps Gigabit network.

Typical Application

Retail
Convenience Store
Workshop
Logistics
Home
and others

Specification
